

CHILD CARE

Child care is a necessity when it comes to average working families.

In a time where it is standard, and almost necessary, for both parents to work, child care programs and facilities have become a staple of the modern family model.

THE RISING COST

As the demand for child care programs and facilities have grown, so has the cost.

We explore the rising cost of childcare further in our blog, and provide some insightful analysis of where the rising costs are highest and provide our call to action to help working families.
